COMPETITION FORMAT

9-10-11-12 December/13 December – Aerial Sport

World Championships in all categories

The running order of the competition will be determined between 20 and 25 November 2026 by the official representatives of POSA, after the closing of the athlete registration deadline (1st November 2026). Registrations will open on 30th August and will close on 1st of November 2026 with all documentation included. If a National Federation reduces the number of participating athletes after the final registrations, POSA/TC reserves the right to modify the starting order to ensure the best possible running of the competition.

POSA World Championships Finals & "Passport Rules"

- The top ten in each category will qualify for the finals.
- No more than two (2) athletes per country (same nationality) are admitted to the final. This means that only the first two athletes from the same country will be admitted to the final. In case of more than two athletes from the same nation in the top ten semifinals, the next athletes of different nationalities in the ranking will then be admitted to the final until a total of 10 athletes are reached.
- In case of a tie at any places at the end of the qualifications see POSA Code of Points.
- This rule could also be applied to Pole's competition, should there be a need to organise semifinals and finals.

The list of the finalists, including two reserves, will be handed over to the head of the delegation after each qualification. Starting order of the final, is made according to the draw of lots carried out in Olympic Training Center of Tirrenia (Italy), on the 7th of February 2026, by the official representatives of the POSA.

Please note that the selection of the semifinal categories will be made exclusively by POSA and the Organizing Committee, always based on time and space constraints.

Everything will be specified in the Running Order, which will be issued between **November 20 and 22, 2026**.

QUALIFICATIONS FOR THE EUROPEAN CHAMPIONSHIP AND THE WORLD CHAMPIONSHIPS 2026

Please refer to the latest version of the POSA Rules & Regulations published by Pole Sport & Arts World Federation.

AWARDS CEREMONIES

The ceremonies at the competition venue will take place as mentioned in the schedule.

AERIAL SUPPLIER AND EQUIPMENT

The Official Sponsor of the aerial equipment is Vertical Wise and Polemaniac.

The competition stage will be equipped with professional aerial equipment with an open-top structure, with a total height of 7 meters. When preparing the routine, athletes must account for a 30 cm reduction for the coupling device and the height of the mat. As a result, the maximum usable height is 6.30 meters for silks and hammock and 6.50 meters for the hoop. All athletes are required to bring their own apparatus (Silk, Hammock and/or Hoop). No Rigging equipment will be allowed. Rigging equipment is exclusive by Certified Rigging Team. **VERTICAL WISE** will provide hoops in different sizes (80, 85, 90, 95, 100), one silk, and one hammock; however, athletes are strongly recommended to bring and use their own personal apparatus. **THE POLEMANIAC** will provide all rigging equipment together with specialised personnel for the Rigging.

Crash Mat 200*200cm, 25 cm thick (Mandatory)

Crash Mat 200*200cm, 30/40 cm thick will also be available and mandatory for silk and hammock.

ACCESS TO THE COMPETITION AREA

The competition area is accessible to the members of the various juries, competing athletes and their accredited coaches, to local group leaders, to the auxiliary personnel of the Jury, to the President of the POSA, Medical Commission, the official doctor, the team doctors, medical staff and to persons concerned with the apparatus. A team medical person is permitted to accompany the athletes and coaches during all Competitions.

SCORING AND DISTRIBUTION OF RESULTS

Once the competition has ended, upon request, all delegations will receive by e-mail a complete set of results (technical sheets only). The results must be requested via e-mail from the Head Judge assigned to the judging panel within 7 days after the end of the competition.

However, requests must also be sent to the international federation within one week after the end of the competition; after this date, it will no longer be possible to obtain them.
(Please refer carefully to the latest version of the Rules & Regulations).

INQUIRIES PROCEDURE

Inquiries for the difficulty scores will be allowed if they are made verbally immediately after the publication of the score or at the very latest before the end of the routine of the following athlete (then 4 minutes). For the last athlete of a rotation (rotation=group of athletes, for example 1st Group of athletes during the competition is called "rotation"), this limit is one minute after the score is shown on the scoreboard.

The person designated to receive the verbal inquiry will have to note the time of receiving it, which will start the procedure. Only the accredited coaches present in the competition area will be entitled to submit an inquiry. Late verbal inquiries will be rejected.

A federation will not be allowed to complain against an athlete from another federation. The inquiry will have to be confirmed in writing as soon as possible, but at the latest within 4 minutes after the verbal inquiry and will require an agreement of payment of € 150—for the first complaint, € 300 — for the second complaint and € 600— for the third complaint. Should the inquiry not be confirmed in writing within 4 minutes, then the procedure will become obsolete.

Should the inquiry prove correct and be accepted, this sum will be reimbursed. Every inquiry will be examined immediately by the Superior Jury and a final decision, which may not be appealed, will be made very soon, at the very latest:

- At the end of the rotation for the qualifying competitions, or at the end of all-around competitions.
- Before the score of the following athlete is shown for the finals.

The detailed procedure is laid down in the respective POSA Code of Points.

MUSIC

To minimize technical issues with the music for the competitions, the Organizing Committee has decided to accept athletes' music submissions exclusively in MP3 format. All music for the World Aerial Sport Championships 2026 must be submitted online in a single email, along with all required documents.

Athletes must send their music by **November 10th** via email to worldaerialsport@gmail.com

Each music file will have to contain the following information:

- The name of the nation (official abbreviation of the country);
- The first and last name of the competitor/s;
- The category;
- The length of the music;
- (Example: ROU_RADU_Alina_Junior_IW_3min30s_mp3 or mp4)

In addition, the competitors need to bring their music with them to the venue on the competition day on a USB stick as a backup.

Caution: An incorrectly named music file will receive a warning from the Head Judge (as per the Code of Points).

The list of categories is available on the POSA official website.

DOPING CONTROL

Any doping is prohibited. A doping control can be done to the athletes at any time, without a pre-warning, in accordance with POSA regulations. Doping controls will be carried out in accordance with the WADA regulations.

Please read POSA Rules & Regulations & POSA-Code of Points.

Each athlete needs to have a competition WHEA/POSA license with an approved anti-doping contract 2026.

Athletes must register with the anti-doping system and obtain their license no later than **September 10, 2026**

THE JURY

Jury Composition (2 panels)

- 1 Head Judge fixed by Draw
- 2 Difficulty Judges fixed by Draw
- 3 Artistic Judges fixed by Draw
- 3 Execution Judge fixed by Draw
- Superior Jury

Tie-breaking rule:

In case of a tie at any position at the end of a competition see POSA Aerial Sport Code of Points and the Rules & Regulations.

DEFINITION OF AMATEUR ATHLETE.

For this definition, please refer to the POSA Aerial Sport Rules & Regulations.

POSA has decided that, to define and differentiate an Amateur athlete from a Competitive athlete, the POSA Code of Points will be used as a reference: an amateur athlete is defined as one who must perform on the aerial apparatus only elements with a value of up to 0.5 according to the POSA Code of Points. However, amateur athletes may perform a maximum of one element with a value higher than 0.5.

Effective January 1, 2026, Amateur athletes who perform even one element (not declared on the Difficulty Sheet) with a score higher than the maximum allowed for their category will receive a 5-point penalty from the Head Judge.

Specifically, prohibited elements will include not only those explicitly coded, but also all their variations and elements whose root is directly and unequivocally traceable to the coded element. Furthermore, prohibited elements are not limited to those performed exactly as described in the Aerial Sport Code of Points, but also include any derivatives originating from the same movement matrix that may be evaluated by the judges as having an equal or higher value.
